# The Energy Crisis Reaches S.M. County

By FRANK LaPIERRE and LINWOOD DAY

That long predicted and much feared energy crisis has hit San Mateo County

Today, many service station operators in the area have been told they could expect only half their gasoline orders to be filled. The word has been passed on

to consumers.

There is no longer any doubt in the minds of these operators and their customers that there is an "energy crisis," a shortage of gasoline that will eventually affect all car owners

It could be a long time between fill-ups if warnings by suppliers to deliver only half of what a service station operator orders is carried out.

Frank Monte, operator of the Westlake ARCO station on Southgate Avenue in Daly City, has been told by his supplier not to be surprised if he gets only half an order this week.

Monte normally pumps 90,000 gallons of gasoline a month. In April he peaked at 100,000 gal-

Last Friday he pumped some 8.500 gallens of gasoline and today he was sweating out whether his supplier would carry out the threat to deliver only half that amount -4.200 gallons. On the other side of Daly

City, another ARCO dealer, Michael DeBernardi, received his full allotment Monday

However, dealers were told they could no longer count on full orders and to prepare for the worst.

"I just started a drinking glass promotion and it was beginning to pay off. Sales were climbing. And now this hits us,"

Meanwhile, Standard Oil Company of California announced it is limiting, as of today, deliveries of gasoline supplies to service stations in ratio to last year's deliveries.

Immediate reaction of some dealers in San Mateo was that the rationing plan was expected but did not immediately affect the business they are doing.

Standard spokesmen explained that a number of factors

are involved in the gasoline shortage.

One, who made it clear that he expects the shortage to continue for several years, assessed the problem to be primarily caused by the lack of new refineries on the one hand, and the increased use of gasoline by new cars on the other.

Both problems he indicated had their root in environmental-

On the one hand, lawsuits and opposition by environmentalists have helped bring about a complete cessation of refinery construction, he said.

Another reason the refineries are not being built, he said, is because the multi-million dollar investment requires a knowl-

edge of just what the gasoline products will be. There has been a state of flux in establishing

Environmentalist action in requiring anti-pollution devices has resulted in increased gasoline consumption by the newer

Additionally, a speed-up of the economy has resulted in increased use of automobiles and, consequently, gasoline.

The Standard spokesman made it clear that no discrimination will be exercised against the independent or Chevron dealers, in favor of the company-owned Standard stations.

All will be treated equitably he said, and "historical contracts" will be honored. New

stations which open henceforth will be aproached with relation to the overall shortage picture, he indicated.

Some dealers claim it's a classic case of the left hand not knowing what the right hand is

They cite as an example the fact that radio and television commercials continue to encourage consumers to use their products while at the same time informing dealers and the same consumers there is an energy crises that will get a lot worse before it gets any better.

I called the MTD (Motor Transport Division) to ask how much they can deliver. They tell me 'probably half.' The salesman for the same company

comes around and tries to encourage more sales through promotional gimmicks." Monte explains.

Monte says it would be "sheer madness" to ration gasoline.

"I'd go broke. I would still be paying full-time help and pumping only half my capacity. Does that make sense?" he asks. What will he do when the real

pinch starts? "I'll have to start by closing

nights and Sundays," he replies. Frankly, I'm scared. I'm scared that I'll go broke. And I'm scared that I'll never be able to get my customers to come back if I have to turn them away." Monte said.

The Colma Creek flood control bill has cleared its first legislative hurdle in Sacramento, but may now be bottled up in committee until financing restrictions are ironed out.

The bill would permit the county, along with the cities of South San Francisco, Daly City, Colma, Pacifica and San Bruno, to undertake a joint flood control project on Colma Creek.

Although the cities and county would initially advance funds for the project, they would be reimbursed from a tax to be imposed in the Colma Creek Flood Control Zone.

However, imposition of the tax would require an exemption to provisions of Senate Bill 90, which restricts property tax rates to the 1972-73 maximum and prohibits increases or new taxation except for state-mandated programs.

Deputy County Engineer Vic K. Sanders, who journeyed to Sacramento Tuesday to shepherd the flood control bill, said that it sailed through the Senate Committee on Agriculture and Water Resourses.

It now is before the Revenue and Taxation Committee where it likely will be shelved for three to four weeks until an exemption to Senate Bill 90 can be legislated or until and omnibus bill to relax the restrictions of SB 90 can be approved.

# No Gideon Bibles for D.C. Schools

Opposition to handing out of Gideon Bibles to schoolchildren in the Jefferson Elementary School District has become so great in recent weeks that the board last week decided to call a halt to their distribution.

Since the board, in a split vote, gave the go-ahead for distribution of the Bibles at schools following advice from Deputy District Attorney Thomas Casey that such distribution could not be halted, some parents have threatened legal action against the district.

They claim the handing out of Bibles on campus could open the door to handing out of other. less desirable, materials.

Ernest Rosenthal, a concerned parent, told the board Wednesday, he did not want his child placed in a position where she would have to reject the Addeon Bible, "although. I, myself, have read the Gideon Bible in hotel rooms."

Rosenthal said he hoped that the board and administration would stop distribution, citing precedent actions on such matters in other states. He said he would take legal action unless such distribution were stopped.

Members of the board said they had allowed the Gideons to hand out Bibles at one school in the district after Casey ruled they could not stop them.

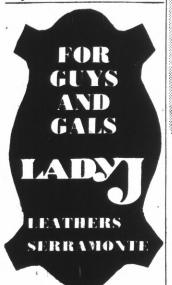

Trustee Beverly Forrester said 'Casey should check his files' for prior decisions by the district attorney which pointed out distribution of religious materials on campus was unconstitutional.

#### Jøgger Dies In Daly City

A Daly City man collapsed and died Sunday night after returning home from jogging, the coroner's office reports.

According to Coroner's Supervisor Robert Cole, Robert Ahsue, 40, of 811 Skyline Drive, had eaten dinner, then had gone logging.

His wife, Joyce, told investigators that her husband returned home and was removing his shoes when he suddenly fell from a chair to the floor. He was dead on arrival at Mary's Help Hospital at 10:30 p.m.

They call him the "Pizza Pusher of Pacifica." So, if you have to make a "connection," make it at Romano's Italian restaurant, Rockaway Beach, Pacifica. #### Phil Lehr Lands 275-Pound Marlin

Phil Lehr, popular owner-host of Phil Lehr's Steakery, in downtown San Francisco, and his stunning wife, Ronnie, are back in town after a fishing vacation at the swank Cabo San Lucas Hotel in Baja, Mexico. Phil must be as adept with a rod and reel as he is at running a gourmet steak house; he landed a giant 275-pound marlin after a ferocious 45-minute battle . . . Arroz Cpn Pollo is chicken cooked Peruvian-style. Escabeche is cooked pickled fish, also Peruvian fashion. These two dishes are just part of the massive menu offered by Frank and Fannie Torres at their Torres Beach restaurant, located in Montara, near Half Moon Bay . . . One of the newer entertainers in the show at Finocchio's is Estuardo Mora from the Mexican Folklorico Ballet. Estuardo is a colorful sight to behold as he sings and dances in bright China Pablana costumes. This popular after-dark club on Broadway is an entertainment attraction for people from all over the world . . . Bertolucci's restaurant in South San Francisco is a great place for Giants fans to enjoy cocktails and dinner before an evening game. There are no parking problems here, and it's only a few moments drive to Candlestick Park. Also open for luncheon before an afternoon game.

In restaurant parlance, take a dash of pride, sprinkle generously with a mixture of knowledge and toss in a jigger of experience and you come up with what goes on at the Down Under on Taylor Street. Three ingredients hard to beat when it comes to complete customer satisfaction. Years in the business have convinced the Summerville Brothers, Don and Jim, what guys and gais really look for when dining in one of San Francisco's better spots. And don't forget the sensible prices . . . If you haven't taken advantage of the Senior Citizen offer at the House of Troy, in San Carlos, which has been such an outstanding success between 3 p.m. and 4:30 p.m., you're missing out on a good bet. MAY WE SAY that our little slap at those shopping carts all over town have produced . . . absolutely no results! The things are still all over the sidewalks, streets, lawns, ad nauseam. May we suggest that John newsperson delivered papers a few years back he took hammer in hand and created his own cart. Truth is.

THE FLAT OF OUR SWORD to the CURRENT majority membership of the Jefferson Elementary School Board for their cheap political tactic in shifting that school Personnel Commission appointment of Mrs. Jeanne Kennaugh over from a Board appointment to a State appointment. These so-called "representatives of the people" did the same quick step with Thomas Noonan last year. The Personnel Commission is a three body panel whose duty it is to represent the school district's classified employees. It is made up of one State, one Board and one employee appointment. Mrs. Kennaugh was assured that with the new makeup of the Board (following the defeat of Albert Collett) that she would NOT be reappointed in December when her term expires. She was an unsuccessful bidder for a post on that same school board in that April race.

THIS COLUMN has taken her, and others, to task on several occasions concerning tax spending habits purportedly while on Commission business aimed at bringing glory to our humble city. Our gripe has been and will continue to be, that we like to see our city properly represented at state functions, but we don't necessarily want that admiration to be bought with our hard-earned tax money. Some, who don't pay taxes in Daly City, have condoned, and even praised, the spending habits of some trustees and Commission members. We ask them to put their (tax) money where their mouths are before they tell us what's good for the community.

WANTED: VANDAL REPORTS — If you spot a vandal doing his thing turn him or her into the JESD and get a handsome \$25 reward. This little publicized item is starting to pay off. So kids, if you want to earn some extra money, just fink on the next person you see busting a window. After all, it's your civic duty and it pays pretty darn well too!

SPEAKING OF SUMMER JOBS - Mike Orlich, of the Jeff High School District (755-3920) is once again trying to round up summer joks for youth. How about helping out this year, Mr. Merchant? Hire a kid. Do yourself and the community a favor. Many of these youth are willing workers and they need the money to buy books and clothes for the coming school year.

**DON'T BE SURPRISED** if the cost of some public buildings, now out to bid, come in a lot higher than original estimates. Cost of building materials - not labor — has risen so sharply in recent months Congress is starting an investigation. Metals, lumber, cement and everything else is included in the skyrocketing costs. With this sort of ultra-inflation (if there is such a thing) there is just no way a seventh and eighth grade facility, such as the one envisioned by some members of the JESD Board of Trustees and administration, can be built for \$1.8 million.

PENINSULA'S CONTINUATION HIGH school sits on the San Bruno hills as controversy over its re-

area have objected to the fact that the board approved the lease plan on April 12 without providing an adequate notice on that agenda. Most administrative officials agree with that be-Hence the Thursday meeting.

However, although Desky and his group will probably get their hearing next week, the chances of the board rescinding its April 12 decision appear to be slim.

Every indication at last week's meeting was that at least three trustees will vote to make the shift regardless of possible strong negative teelings from the Baywood community.

Planning and philosophy aside, it is plain that some Baywood residents simply don't want this kind of school in their neighborhood, an attluent area of high-priced homes in the rolling hills between Hillsborough and the Aragon district

One real estate salesman says a fearful seller along Columbia Drive - St. Bartholomew's is located on the corner of Columbia and Alameda de las Pillgas - has expressed grave concerns about the possibility that the value of his home will drop precipitously if Peninsula is moved to the neighborhood.

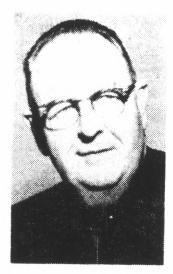

Stone himself says he can understand such worries but he thinks most Baywood residents would view the situation with more tolerance and less emotion if the facts about the school were made known.

For that reason, Stone has met with Desky's organization and, according to Desky, the meeting was highly beneficial tor all sides involved.

Another key figure in the dispute could be a man who is on the other side of the \$10,000 per year lease: Father John Lally, the pastor of St. Bartholomew's. And Father Lally is convinced that the district ought to be allowed to make the move to St. Bartholomew's.

"I don't want to cause pain to anyone." he says, "but those youngsters need a place to go. It has come down to the point where, if I had said no, it would have meant either I was arraid of the reactions of the neighbors or that I actually didn't want those youngsters around. And I've been around too long to

"The decision will make our own program at the school more difficult. It will involve extra work on our part. But we can both use the building. The lease would not have been approved by the Chancery office if I had recommended differently.

Father Lally, wno said finances were "the last thing" on his mind when district officials approached him with the idea has received more than a few troubling telephone calls from

anonymous individuals who object to the clergyman's decision. He said he would rather not elaborate on those calls, howev-

The dilemma over what to do about Peninsula has been a continuous headache for the high school district for several years. Over a year ago, a special committee came up with a set of 17 possible sites for the school. The St. Bartholomew's location was third on that list. On that list were two locations on district-owned land, one off

Tartan Trail Drive in Hillsborough and the other in Foster City on the site of the proposed Marina High School Desky, for one, has brought up the possibility of utilizing one

of those locations for Peninsula. And, for him, the Marina site, composed of some 56 acres of prepared, filled land, looms That is a site which is flexible and accessible, 'he says, down-playing the obvious possi-

bility that Foster City residents, already worried that Marina may not be built for many years, might well object strenuously to the sight of a portable continuation school on that land. Others in the Baywood association agree with this line of

Some also believe that Peninsula ought to stay in the kind of setting it's in now: Removed from surrounding residential areas, bordered by a freeway to the south and generally apart from the rest of the community. Stone disagrees:

"The one thing these youngsters here don't need is further isolation. We feel lonely out here. The setting for this school should be a pleasant one. From where he sits, St. Bar-

tholomew's fills that bill nicely Whether the lease will become a reality rests in the hands of the board.

#### Puzzle Games

So you think you're clever!

Solve this problem: A boat will carry 200 pounds. How may a man weighing 200 pounds and his two sons, each of whom weighs 100 pounds, use the boat to cross a river? I'll give you a hint — it requires more than one trip.

Take a sheet of paper and divide it into 20 squares. In each square at the top, place a letter (any letter). In the squares down the side, write "people," "cities," "counties," and "products." Now fill the rest of the squares on Row Two with the name of a California person whose last name starts with the letter at the top of the row. For Row Three, fill in the names of cities starting with the letter at the top, and thus proceed until you have filled all 16 squares.

TONIGHT while you are driving home from work entertain yourself by seeing if you can name ten big league baseball clubs, or ten chemical elements, or ten makes of automobiles, or ten U.S. presidents who served two terms.

Hundreds of Americans are finding that quizzes and word games offer an intriguing form of relaxation. They are learning along with the editors of Reader's Digest that "putting one's knowledge to the test, either in a game with others or in a game with yourself, can be an enjoyable and educational pastime.' Tests have shown that such mental games prove to be therapeutic when played by persons confined to their beds. Such games are known to ward off boredom and to keep drivers awake.

Writing in their publication, "The Book of 1000 Family Games," the editors of Reader's Digest advise that quizzes are most enjoyable when played as an oral contest between teams or between individuals.

Try this one the next time you're on a trip. Choose a word of four letters or more. Then, by taking letters from the license plates of oncoming cars, see how many cars pass before you've found every letter in your word. But watch your driving, too.

License Bingo is calculated to keep children happy for hours. Make a bingo card with letters in each square and while Daddy drives, Mommy calls out letters from license plates of oncoming cars and the children play bingo in the usual way.

A ROADSIDE Scavenger Hunt is another game for travelers. An adult makes up a list of all the different kinds of objects and people that are likely to be seen along a highway. Each person in the car, except the driver, is given a copy of the list and a pencil. Whenever a player spots one of the items on the list. he calls out its name and checks it off. The first player to see an object and to call it gets credit for it. The winner is the first person who crosses off all the items on the list.

Many such games are popular. People are learning the truth of a comment that appeared in Reader's Digest. "Games are great fun. That is the primary reason why they are played and why they have continued to survive in an era when there are so many other forms of leisure-time pursuits."

Anybody can play — the nervous little boy, the overly plump little girl, the self-conscious or badly coordinated man or woman can play such games with never a thought of their problems.

FOR DESCRIPTIONS of games to play, consult the "Reader's Digest of Books" or "Fun For the Family" by J. S. Myer, or any of the following, "The Cokesbury Game Book," "The Giant Book of Games" by L. B. Frankel, "The Fun Encyclopedia" by E. O. Harbin and "Family Fun" by R. V. Masters.

Spry Comedy

Hillbarn Little Theater celebrated its fifth birthday at the Foster City playhouse with a spry marital comedy that gamboled from London in 1970 with Robert Morley to New York in 1971 with Phil Silvers to San Mateo in 1973 with John Rechtfertig called "How the Other Half Loves."

Being a party, it was only right that laughter should prevail and it did, through four scenes in two acts, although the mistaken identities and jealous jousting does grow a bit tiresome before the final curtain. But it's the fault of playwright Alan Ayckbourn's overdrawn script and not director Robert Brauns' lack of merry pace in circumventing the tangled logistics. Between him and set designer Sam Rolph, you would think that the show had been choreographed as a dance piece with dialogue, it moves so fluidly across what might seem a confusing floor plan that integrates two separate apartments with different entrance and exit doors but utilizing the same furniture.

One of the most intriguing sequences I have ever seen in counterpoint action involves a dinner party between three couples at the same dinner table but supposedly in two different homes on two different nights. The respective host and hostess couples quite ignore the overlap of eating and conversation as the invited guests turn quickly back and forth to their

The production is closer to farce at times but has some bright lines as delivered by an impeccably chosen cast. That is where Brauns has pushed the credibility line. The six performers are so right for their roles that you are quickly caught up in the silly charade and breeze along with the fun.

It would seem by the British cast that the play also worked with older couples. And perhaps there could be a wider range of age difference between Frank Foster (Rechtfertig) who plays a dense, pompous, interfering bore and Elizabeth Rolfe as Teresa Phillips, the disorganized and suspicious wife of his employe

Betty Eichler as Fiona Foster is totally beguiling and sophiticated as the "other woman" in Bob Philips' life. As Phillips, a beer-guzzling, muscular bully who sprays his bare chest with Superman's "S" symbol in foam shaving cream,

Tom Carlstedt is likeable and natural on stage. The intimidated couple who get caught in the middle of this jealousy game, Mary and William Detweiler who don't drink, are shy and mousey and have no gift for social conversation, are made delightfully real and sympathetic by Judi Bafigo and J. Geoffrey Colton. They appear constantly shocked, self-conscious and unpoised as the innocent victims of

troublemaking friends. It is more of an adult comedy because of the language and double entendres than Hillbarn usually does and that makes it all the more fun. One domestic quarrel leads to a knock-down. drag-out fight and a thrown kettle of soup.

It is a good choice with which to begin a new year at

Old Fashioned Potato Salad sesame seed to coating mix
2% pounds potatoes (about 8.) picnic are fried chicken, potato 400-degree F oven 30 minutes. salad, deviled eggs and ice cold

The simplest way to prepare ings. chicken for a picnic crowd, is to oven fry it. The recipe given today, which was developed in the Mazola kitchens at Best Foods, presents the basic recipe for oven fried chicken plus five bonus variations. Corn oil is suggested for oven frying as well as when deep fat or pan frying, because it is low in cholesterol and high in polyunsaturates.

Recipes for Old Fashioned Potato Salad, Deviled Eggs and Lemonade made with a lemon syrup base are also given. The lemon syrup base should be prepared ahead and chilled. It is made by cooking together water, sugar, corn syrup and grated lemon rind. This syrup stirs easily with water and lemon juice to make the lemonade. Cooking the rind in the syrup gives the lemonade extra tang.

#### Plain Talk

**ABOUT** LUCKY-TRIM MEATS

The way meat is trimmed of excess fat and bone is more important than the price per pound. For example, the chine bone, gristle and excess fat in an ordinary Standing Rib Roast can add up to 14 per cent of its total weight. that's 14 percent of the roast you can't eat!

In plain figures, there can be as much as 70 cents worth of waste in a \$5.00 roast . . . waste that Lucky demands be trimmed away BEFORE the cut of meat is weighed and wrapped. And with T-Bone Steaks, the excess fat and tough tail erd of the steak can add 4 ounces ofweight . . . and a proportinate amount to the price you pay for it. But again . . . NOT at Lucky. These are carefully trimmed away before you buy your steak.

His recommendation was met with immediate opposition from Trustee Dorothy Adams.

In his reasons for closing the school, built some 30 years ago Greenwood noted that of the 210 students attending only 105 currently walk to school while the remainder are bused i nfrom Woodrow Wilson.

He offered as alternatives that the central kitchen, now located at Christopher Columbus School, be relocated in the multipurpose room at "Little Jeff. with the balance of the buildings used as a major child care cen

Mrs. Adams questioned the advisability of locating a child care center - the district's first such center - in an area where such a small number of children live. She thinks it should be situated in a more readily available

Greenwood said that if the board decided against such a care center perhaps the district could negotiate with the Jetterson Union High School District to have them buy or lease on a long term basis Thornton School now used by the JESD for storage. Jefferson School could then be used as a warehouse.

Trustee James Cranna sided with Greenwood and said that the Jefferson School had "outlived its usefulness."

Had this proposed project been approved it would solve many of the districts student housing problems, it was noted. Greenwood called many of the district's 23 schools "vintage" and earlier told the board they should be closed. He reiterated his stand last night.

### **Journalism Fund Cuts** Are Opposed

Two area journalism teachers spoke their opposition to proposed cuts in publications funding by the Jefferson Union High School District last week. Supt. Edward Morgan last

week had proposed slimming of the Daly City-Pacifica-San Bruno district's budget by nearly

Appearing before trustees last week in Daly City were Terra Nova High School, Pacifica, journalism teacher Le Pacini and Skyline College, San Bruno, instructor Samuel Goldman.

Both are award-winning journalism advisers, and both explained what cutbacks would do to their programs.

Pacini described journalism as an academic program and failure to allow his department to publish would be tantamount to taking textbooks away from teachers

Elimination of district funds, he said, would "cut my program effectively in half.' He said a number of students

had won journalism awards, as has the school's Tiger Tales publication. Goldman said about 15 stu-

dents who have graduated from the JUHSD journalism departments have continued at Skyline and other colleges to win awards and honors.

He said the \$17,500 budgeted for "school publications" is only a small portion of the total budget and "the return you're getting in terms of giving the young people an education" is

too important to sacrifice. Dr. Robert Watt, the district's business administrator, projected expenditures of \$12,195,478;

income of \$11,683,237. Morgan blamed Senate Bill 90, which clamps a ceiling on school district revenue, effective next fall, for the need to curtail some programs and services.
